### Technical Data

Combined - l/100km  
**CO<sub>2</sub> emissions** - g/km

The values of fuel consumptions, CO<sub>2</sub> emissions, energy consumptions and ranges shown are determined according to the European Regulation (EC) 715 / 2007 in the version applicable at the time of type approval. The figures refer to the WLTP testcycle according to directive (EC) 1151 / 2017 and may vary depending on the optional equipment selected. The range shown considers different configurations of the selected model and are not part of any offer made, rather they are solely for the purpose of comparing different kinds of vehicle. For further information about the official fuel consumption and the specific CO<sub>2</sub> emission of new passenger cars can be taken out of the 'handbook of fuel consumption, the CO<sub>2</sub> emission and power consumption of new passenger cars', which is available at all selling points.
